TWENTY YOUNG MEN REGISTER FOR DRAFT SERVICE

Twenty young men of Paris and Bourbon county, who have become twenty-one years old since June 5, of this year, registered for military service with the Bourbon County Draft Board, Saturday. Of this number thirteen were white and nine negroes.

The registration with the Board was just a trifle short of what had been expected. The shortage was accounted for, however, from the fact that a large number of young men from the city and county had volunteered and had gone into the military service before the registration.

Upon registering the young men were given questionnaires which they are to fill out and return within seven days from Saturday. This will save the delay caused by mailing out the questionnaires, and the new registrants will soon be examined and made ready for entering the service.

The names and addresses of the registrants of Saturday are as follows:

White—Howard Ritchie, Shawhan; William B. Johnson, Paris, Route 6; Lonnie Graves, Paris, Route 8; Oscar Otis Gibbins, Paris, James Faulconer, Paris, Route 2; Russell Calvin Rose, Paris, Route 1; Lee Edwards, North Middletown, Wm. E. Lanter, Paris, Route 6; Leonard H. Tune, Paris, Route 1; George Ryman Insko, Paris, Robert Edwards, Cynthiana, Route 7; Clifford Carter, Paris, Route 2; Lyman Charles Taylor, Paris.

Colored—Lyman Fauntleroy, Paris, Route 7; William Robison, Paris, Roger Hutsell, Paris, Route 7; Roger Hall, Paris, Route 1; James Henry Morton, Paris, Route 8; George Berry, Georgetown, Route 1; Oliver Pierce Porter, Paris, George Sykes, Paris, Route 7, and Artemus M. Carter, Paris.

The boys who registered Saturday had been warned previously that failure to do so would mean forfeiture of possible deferred classifications. The only exception was that of boys of the Jewish faith, or others, who, because of religious scruples, opposed registration on Saturday were deferred until yesterday.

How soon the new registrants will be called into the service will vary according to the numerical strengths of Class A-1. The numbers will be assigned the new registrants by the draft officials, and by reference to the master list of the last lottery the new men may learn the order of their call.

HOME SERVICE SECTION TO OPEN OFFICE HERE TO-DAY.

The Home Service Section of the Bourbon County Red Cross Chapter announces that it will open an office in the Bourbon-Agricultural Bank Building, to-day (Tuesday), August 27th.

From this date it will be open Tuesday, Thursday and Saturday of each week from 10 a. m. to 5 p. m.

The Department of Home Service is the government's agency for keeping in touch with and administering to families of soldiers and sailors in the service of our country.

There are many problems constantly arising incident to the absence of the men of the household, and it is the purpose of this department to relieve the men at the front of all anxiety as to their families at home.

Fathers, mothers, wives, sisters and brothers of men in any branch of army or navy of the United States or of our allies are urged to come to the Red Cross with their troubles. Do not write the men in the service about them and cause them worry over difficulties they are powerless to relieve.

Your troubles will be told the Home Service in private, and your confidence scrupulously observed. Let the Red Cross do your worrying for you.

RUNAWAY TEAM CRASHES INTO AUTO; TWO HURT.

When two negroes, Ray Baker and Phil Bowen, were motoring to Lexington, Saturday night, in a car belonging to Thos. Hawkins, of Paris, they saw a two-horse farm wagon in which three white men were coming down the pike. The horses were running and the wagon was swaying from one side of the pike to the other. The two men pulled their machine to the extreme right of the pike and stopped.

The oncoming wagon and horses plunged head-on into the machine, throwing the three men in the wagon out on the ground. The automobile was demolished, and both of the occupants badly hurt. Ray Baker, who was driving, was taken to a Lexington hospital, and Bowen was brought to his home in Paris. The three men in the wagon left the scene of the accident without their names being ascertained. One of the horses was killed by the impact of the machine, and the fleeing horses and wagon, and the other was so badly injured that it had to be killed.

LOCAL DRAFT BOARD PREPARING FOR NEW REGISTRATION

The local draft board is making preparations for registering 2,200 men in Bourbon county under the provisions of the administration's man-power bill extending draft ages from 18 to 45 years, it was stated yesterday by County Clerk Pearce Paton, a member of the board. The registration will probably be held on September 5.

Voting booths will be erected in each precinct of the city and county for the registration of the men. Names of the registrars who will act on the registration day have already been sent in to Major Henry F. Rhodes, chief of the selective service of the State, and everything is "all set" for the registration.

Local board members yesterday were unable to estimate the number that will be placed in Class I and would be qualified for service in the new registration. Major Rhodes, however, estimates about 70 per cent. of the registrants will be eligible for army service, which means between 75,000 and 80,000 will go from Kentucky.

Of the twenty-two "21-ers" who registered on Saturday, Mr. Paton estimates eighteen will be qualified for service and that they will be called either the latter part of September or the first of October.

A communication received from Major Rhodes asks for volunteer stenographers who have had court experience to be assigned to the office of the Provost Marshal General, where they will report court martial cases and the like. The local board is instructed to take especial care to only select those who are qualified. The list of the men volunteering will be sent in to Major Rhodes on August 31.

Seven applications for furloughs have been filled out by the local board for farmers who desire to come home to assist with the crops. Those who have the furloughs allowed will probably be released from service for thirty days.

IMPORTANT NOTICE TO PATRONS OF THE NEWS.

The War Industries Board, whose order concerning the reduction in the use of print paper by the daily papers, was recently issued, has extended that order so as to include the weekly papers. This will become effective on September 15. After that date the publishers of weekly and semi-weekly papers must reduce the amount of paper used fully fifteen per cent. each month as compared with the amount used in the same month of 1917. The publishers will be required to make a sworn statement of the amount of paper used by them.

In compliance with this order THE NEWS will be compelled to discontinue the sending or giving out of all free copies of the paper, and on and after Sept. 1, our list will be weeded out so as to comply with the provisions of the War Board's orders. The size and the price of the paper will remain the same, but copies will be sent only to those who are paid in advance. Under the provisions of the order we will be compelled to lose some of our most highly valued exchanges, and to discontinue many copies of the paper, much against our will, that have been going to soldiers and sailors in the army and navy. The order simply must be obeyed, and there's no getting around it.

All subscribers over one year in arrears for the paper will have to be discontinued on Sept. 1. It is not that we doubt the financial standing of the subscribers, but it is absolutely necessary that we keep the list paid up in order to fully comply with all the requirements of the War Board's order. It is not the desire of the management of THE NEWS to send a single copy of the paper to anyone who does not want it. If you are receiving THE NEWS and do not expect to pay for it you will do us a favor by refusing to accept it from the postoffice of the carriers.

HAVE YOUR HOUSE WIRED—MATERIAL ADVANCING DAILY

Place your order NOW for having your house wired for electricity. Material is advancing daily. We have men ready to do the labor now and may not have later. House-cleaning time for fall will soon be on, too—have the work done before that time. The days will be getting shorter soon and you will want light in the early evening. There is every reason for preparing for electric conveniences NOW. You may need electric current for various purposes this winter. Let us figure with you NOW. PARIS PEOPLE BRUISED IN AUTOMOBILE ACCIDENT.

Mr. Woodford Buckner and Mrs. Katherine Davis Craig, both of Paris, received slight bruises when the automobile in which they were returning from an afternoon at Boonesboro, struck the girder of a bridge head-on. The rear end of the car skidded squarely across the road, blocking traffic for some time. The accident occurred several miles from Winchester, between that city and the Boonesboro bathing beach.

The car was not badly damaged, though it was so caught between the girders of the bridge that it was necessary to take off the wheels in order to get it out. Mr. Buckner and Mrs. Craig were brought to Paris in another machine by a Winchester chauffeur.

ENROLLMENT OF NON-ESSENTIALS TO ESSENTIAL WAR WORK.

The Department of Labor at Washington has directed the Public Service Reserve Board under the Federal Service Board to proceed with the enrollment of non-essentials to essentials in war work.

Farming being one of the greatest war essentials, this work is of vital importance to the farmers, and they should give their hearty co-operation to the work. Farming is the only absolute war essential of which the people of Bourbon county will have to deal. In a few days there will be enrolling agents appointed in each precinct of the county. All patriotic people engaged in non-essential work will be asked to enroll for some essential work for the Government during the war.

Dr. Frank L. McVey, of the State University at Lexington, is Director of the Public Service Reserve Board for Kentucky, and has appointed F. P. Lowry, of Paris, as Chairman of Board for Bourbon County, who will furnish any information desired.

The following are the industries which the District Board, the first to make an announcement, has listed as non-essential:

Automobile industry accessories, drivers of pleasure cars, cleaning, repairing and delivery of same, sight-seeing cars, auto trucks, other than those hauling fuel or doing Government work, teaming other than delivery of products for war work, bath and barber shop attendants, bowling, billiard and pool rooms, bottlers, cigars and tobacco, cleaners and dyers, clothing, confections and delicatessen establishments, builders and contractors not engaged in erecting structures for war work, dancing academies, mercantile stores, florists, fruit stands, junk dealers, livery and sales stables, pawnbrokers, peanut vendors, shoe-shining shops, window cleaners, soft drink establishments, soda fountain supplies.

TOUCHING TIMES AT THE ALAMO THEATRE.

"Touching" scenes are being enacted at The Alamo Theatre, the pretty little movie house at the corner of Main and Fifth streets. Not that touching scenes are a rarity there, but this time the play is being put on by painters and decorators. The interior and exterior are both being repainted redecorated, and the whole place given a thorough overhauling.

COLORED DRAFTEES LEFT SATURDAY FOR CAMP TAYLOR

In charge of Capt. Arthur Brown, one of their number, twenty-three colored men from Bourbon county, who had been called to the colors, entrained at the Tenth street passenger station of the Louisville & Nashville, in this city, Saturday morning, for Camp Zachary Taylor, where they were inducted into the service of their country.

The men met at the office of the Bourbon County Draft Board, at the court house, pursuant to instructions, at five o'clock, Friday afternoon. They were given their final instructions, after which patriotic addresses were made by David Miller and Prof. R. G. Grant, prominent colored men of this city. Judge Chas. A. McMillan, Chairman of the Draft Board, presided at the meeting. In a short address to the draftees he told them that the new selects from this county who had gone to Camp Taylor had more non-commissioned officers than any other contingent sent to the camp from any other part of the State.

At the colored M. E. Church, on High street, Friday night, the men were guests of the people of Paris at a banquet. A patriotic program was rendered in their honor, addresses made by prominent men of their race, and they were served with refreshments.

They assembled in front of the court house at seven o'clock Saturday morning, where they were formed in line of march, and, headed by the Liberty Drum Corps, marched to the L. & N. station, where they entrained at 7:45 for Camp Taylor. Before their departure they were liberally supplied with cigars, cigarettes and tobacco, the gifts of the people of the county. Those who left Saturday to be made into soldiers in Uncle Sam's army were:

970 (1210) Jim Thompson.
1244 (997) Walter Mack.
1476 (448) Arthur Brown, Captain.
73 (68) Henry Hawkins, (volunteer).
566 (447) Chas. W. Berry, (volunteer).
7 (783) John Hutsell.
417 (1232) John Norman Christopher.
486 (544) Ben Hillman.
870 (1251) Charlie Happy.
1403 (651) Frank Breckenridge Thomas.
1456 (1019) Cal Firman.
1481 (1089) John Ellis.
1503 (1088) Charley Calloway.
1520 (813) Joe Scott.
6 (76) Stanley E. Bowles.
16 (72) Willie Baker.
21 (41) Wilson Macon.
30 (48) Rowland Harris.
1244 (997) Stephen Beatty.
40 (81) Jerry Jackson.
47 (58) Arline Thomas.
54 (8) George Washington.
59 (40) Willis Cason.

IN THE SERVICE OF THEIR COUNTRY.

It takes sand to be a soldier. Against the Huns to make a stand; But thought in other things there is a shortage—Thank God, Kentuckians haven't run out of sand.

Lieut. Fielding Rogers has returned to his duties at Camp Sherman, near Chillicothe, Ohio, after a visit to his parents, Mr. and Mrs. Warren Rogers, near Cane Ridge, in this county.

It is now First Lieutenant Nathan Bayless, Jr., in Uncle Sam's service, if you please. The promotion was awarded to this young Parisian last week. Lieut. Bayless is stationed at Camp Lee, in Virginia, as a member of the Veterinary Corps.

Lieutenant Lawrence Lavin, who is stationed at Camp Gordon, in Georgia, is spending a furlough vacation with his parents, Mr. and Mrs. M. J. Lavin, in this city. Lieut. Lavin is regulation bayonet instructor at the Camp. He is in excellent health, and makes one of the finest-looking soldiers in Uncle Sam's service.

Arthur Zorne, of Paris, a member of Co. G, Seventeenth U. S. Infantry, stationed in the service at Camp Meade, Md., writes to friends in this city, that he is in fine health, and well satisfied with the manner in which Uncle Sam is treating him. He says he hopes to get a furlough very soon, in order to make a visit to Paris.

Mr. and Mrs. Thos. F. Brannon, of Lexington, former Parisian, have received a letter from their son, Leo C. Brannon. The letter of his arrival at Hoboken, N. J., after an overseas trip from France. This was his initial overseas trip across, he having been in training at the Great Lakes Naval Training Station since June. He is now in the transport service.

Mr. George Fishback, son of Mrs. Ada Fishback, of Paris, and a brother of Mrs. Clyde Huffman, has been transferred from the U. S. Technological Institute at Cambridge, Mass., to the aerial field service at Akron, O., as a member of the United States Naval Aviation Corps. Some time ago he was in the service at Akron, and has now been sent back there for special service.

A telegram was received here Saturday by relatives stating that First Lieut. Milton J. Stern, of Paris, had undergone a successful operation at the Base Hospital, at Camp Wadsworth, Sparta, S. C., where he is stationed. Lieut. Stern is a member of the Medical Corps, detailed on special duty. The telegram did not state the nature of the operation, but it was inferred that it was of a minor nature.

Six hundred limited service men will be sent to Camp Wheeler, near Macon, Georgia, between September 3-6. Of this number Bourbon county will furnish three. Other quotas are as follows: Bath, 1; Clark, 4; Fayette, 4; Franklin, 5; Harrison, 4; Mason, 4; Woodford, 1; Lexington, 23. A call for 700 draftees men to go to Camp Taylor on September 3 has also been made. Bourbon does not figure in this call.

Week by week the roll of Bourbon county boys who have crossed or are crossing the Atlantic to battle in France, and perhaps Germany, with the armies of freedom, grows larger. It is the inevitable result of war conditions. Let us at home who are to profit by their sacrifices "keep the home fires burning," and erect in our own hearts an altar whereon will be always placed a silent appeal to the Highest Power to give them success, honor and glory!

After an interval of silence the "Bourbon County Misfits," so styled by Ireland "Bit" Davis, one of their number, have been heard from. It was the presumption that they were "sawing wood and saying nothing." THE NEWS has received a post card from Wm. Mitchell, at Seattle, Washington, as follows: "We have just started for the far Northwest to-night (August 18). Arrived here at 8:30 p. m. Leave on the boat at 11:00 p. m. for the woods across Puget Sound."

Sunday's Lexington Leader has the following complimentary reference to one of the staff, Mr. Wayne Cottingham, a Paris boy, who will go in the service to-morrow:

"The Leader is this week losing three more of its 'boys' to Uncle Sam's mighty army—Martin Quinn, Isola Dunn and Wayne Cottingham. They listed here not in the order in which they occupy places in the affections of the shop, but according to seniority of service. These fellows have made good with The Leader and wherever they are sent to serve, the honor of their country will be in safe keeping. If they get to the first line trenches, there will be a few less Huns left to put flowers on the grave of autocracy. The Leader gives these boys up cheerfully but they will be missed tremendously. They have been useful units in what we have believed was potentially the finest newspaper working organization in Kentucky and each has contributed his (Continued on Page 8.)

HOUSE PASSES THE 18-45 MAN-POWER BILL.

The new Manpower Bill extending the selective draft to all men between the ages of 18 and 45 years was passed by the House, Saturday night with only minor changes in the original draft of the War Department.

On the first call only two negative votes were cast by Representative London, of New York, the socialist, and Representative Gordon, of Ohio, Democrat. The final vote was announced as 336 to 2.

The final vote was preceded by three days' debate, during which the chief contention was an amendment to defer the calling of youths from 18 to 20 years until older men had been summoned. A final effort was made by Chairman Dent to place the bill to the Military Affairs Committee with instructions to incorporate that amendment was lost 191 to 146.

The bill now goes to the Senate, where leaders predict its passage early next week. The Senate plans to substitute the House bill for the measure favorably reported by the Military Committee of that body and thus expedite its final enactment. Congressional leaders hope to send the measure to the President by the latter part of this week.

POLICE JUDGE CALLED FROM SLUMBERS TO PASS ON CASES

It was a case of "Hurry up, please," Friday night when Herman Stephens, of Lexington, called Police Judge Martin from his slumbers in order to pass on a case wherein he was the defendant. Stephens, who was in charge of a Lexington orchestra playing for a dance being given in the Masonic Temple, was late in arriving, and was speeding down Main street in his automobile, when he was placed under arrest by Patrolman Lusk on a charge of exceeding the speed limit. Judge Martin tumbled out of bed, heard the case, passed judgment, fined Stephens \$22.50, and returned to his interrupted slumbers. Stephens paid the fine and departed.

C. E. McCormick, also of Lexington, arrested at 3:30 Saturday morning by Patrolman Lusk, and brought before Judge Martin, on the same charge, entered a plea of guilty, and was assessed a fine of \$22.50, under the same circumstances, the trial Judge again being roused from his sleep to hear the case. Judge Martin also assessed a fine of \$22.50 against E. E. Landis, driver for the Merchants' Transfer Co., for careless driving. The warrant was sworn to by W. H. Whaley, the truck driven by Landis striking a mule colt belonging to Whaley, breaking its leg. Whaley will sue for the value of the colt.

BOURBON WHITE TEACHERS' INSTITUTE MONDAY.

The Bourbon County White Teachers' Institute will convene at the court house, in this city, on Monday, Sept. 2. The Institute will be conducted by Prof. J. C. Lewis, of Wesleyan College, who will be instructor in advanced work, and Miss Mattie O'Neill, of Cattlettsburg, in the primary. Two speakers other than these instructors, are expected to be present some time during the meeting.

All the schools, both white and colored, will begin on Sept. 9. It is earnestly hoped that every child will be ready to start and not be forced to go to school. As most all know the new school law forces the parents or guardians to send the children to school every day, or be fined. This law compels the teacher to report to the trustee, or, as it will be, in the county, to the Trustee Officer. The Trustee Officer then reports to the nearest Court having jurisdiction.

This Court then issues a warrant against the parent or guardian, and then proceeds to try the case the same as other criminal cases are tried. Any person or person failing to comply with all or any part of the law shall be fined not less than \$5.00 nor more than \$20.00 for each offense.

CARRIER ROUTES IN CITY TO BE REARRANGED.

Citizens of Paris who desire and expect to have their mail delivered at homes or residences in the future will be required to have such places of delivery numbered according to requirements of the Postoffice Department.

A few days ago accompanied by a postoffice inspector from the Cincinnati district, Postmaster J. Walter Payne made a trip of inspection over the territory in the city covered by the city carriers. They made note of the unnumbered houses and will submit a report to the authorities. The inspector notified Postmaster Payne that street signs must be placed on all street corners in the city, and all houses numbered before the carrier service is rearranged. This is a very vital matter, and one of the most rigid requirements of the Postoffice Department. It has been urged time and again as a necessity for the establishment of a thorough carrier service in the city.

How Our Boys Leave.

Have you noticed how the Bourbon county boys who leave Paris for the training camps take their departure as a matter of course? Very few of them seem to be greatly concerned over it. The ordinary man who leaves takes his departure in a matter-of-fact way, and attributes it to the god of Things-as-they-are, but but there are a few who leave more than their jobs and their petty plans which centers in themselves.

Many have gone and many more are still to go before the fate of democracy and civilization shall be settled by the result of the terrible world-war now being waged in Europe. And there is something very fine about the quiet way in which these boys have taken to their unpleasant task. There has not been any enthusiasm. That was right. A war like this does not ask for words, but for silent deeds. Our boys seem to understand it. They are going and many of them will never come back. But that is the fate of war and the toll of war, and to be expected. Their pleasant life of mediocre endeavor has come to an end. To be sure, we have never looked at them in the light of heroes. They were just plain, likable Bourbon county boys. Their outlook upon life was simplicity itself. Many of them were from the farms. Many were from the schools and offices. It was just graduation and then a job. Then, after a few years, another job a little higher up. Later, perhaps a home of their own, and some nice girl for a wife, and a baby, and many other things that constitute some small portions of the enjoyments of life.

To most of them, however, life meant a cheerful gift to be enjoyed as the faithful days came along. There was no searching for hidden motives or for an ulterior purpose. They were ruled by the admirable Divinity of Things-as-they-are. They accepted whatever came with a smile, just as they will meet death over there with a smile and brave front, and they did not ask questions. And now, without a word of warning, they have been asked to face the invisible mystery. There was no complaint. They packed their grips, said their good-byes with a brave demeanor, though it cannot be denied there was many a stolen glance toward the old home as they left it. They went, and others will come after them. Not only the mothers, the fathers, the sisters, brothers and sweethearts send up their daily prayers for them, but every man, woman, and even children follow them with their prayers.

Wage Increase Decisions.

The National War Labor Board, of which former President William H. Taft and Frank P. Walsh are joint chairmen, rendered decisions one day recently giving substantial increases in wages to 50,000 employees engaged in twenty-two street railway enterprises. The percentage of increase in the awards ran from 35 to 40 per cent. in the larger cities, including Chicago, Detroit, Newark

and Rochester. In New Orleans the increase was 50 per cent. and in Galesburg, Illinois, it reached 65 per cent. A flat wage of 50 cents an hour was fixed in the Chicago case, and overtime work was arranged at time and a half pay, thus placing the employees on the same plane as skilled mechanics in Government industries.

Paul M. Warburg, of the Federal Reserve Board, in a recent address spoke of the "drastic shrinkages" that have occurred in public utility investments, and he expresses some alarm at the outcome. The records show that four companies with outstanding securities aggregating \$250,000,000 have gone into the hands of receivers this year. The utilities are paying increases of from 90 to 150 per cent. for fuel, from 35 to 300 per cent. for materials, and from 40 to 50 per cent. for labor.

It is easy for the average mind to figure out why these increases in wages and other items of operation occur, but it is a little slower, but just as inevitable a process to figure out, that the five cent carfare will have to make the same kind of an exit that has been made by the five-cent loaf of bread and the five-cent quart of milk.

Roosevelt On Our Industries

Once in awhile Colonel Roosevelt talks about things in a way that all agree with, whether they are partisans or foes of the ex-President. Mr. Roosevelt has recently said that "in our industrial activities, alike of farmer, wage worker and business man, our aim should be co-operation among ourselves and control by the State to a degree necessary, in order to prevent tyranny and yet encourage and reward individual excellence." Colonel Roosevelt says that "government ownership should be avoided wherever possible; our purpose should be to steer between the anarchy of unregulated individualism and the deadening formalism and inefficiency of widespread State ownership. From time to time it has been found necessary for the Government to own and run certain businesses, the uninterrupted prosecution of which is necessary to the public welfare and which cannot be adequately controlled in any other way, but normally this is as inadvisable as to permit such business concerns to be free from all Government supervision and direction."

"Normally, and save where the necessity is clearly shown, our aim should be to encourage and stimulate private action and co-operation subject to Governmental control."

Just Suppose, Now!

Suppose no great war had happened. Suppose a President of the United States had given Cabinet portfolios to the Chairman of the Bethlehem Steel Company, a member of the firm of J. P. Morgan & Co., and the President of the Anaconda Copper Company.

You need not be extraordinarily endowed with imagination to suppose a roar of amazement and indignation. Only two or three years ago the Senate sternly refused to confirm President Wilson's appointment to the Federal Reserve Board of an otherwise reputable and competent man who was a Director of a big industrial corporation, and it had the hardest kind of work to persuade itself that a man with Wall Street banking experience might be as serviceable on a banking board as a country editor.

A valuable contemporary tells us that democracy instinctively and inveterately distrusts competence and success. That sounds hardly reasonable, yet our contemporary can point to a mass of evidence. We wonder whether the mass will increase or diminish after the war.

Conserving Paper.

If we are to have conservation of paper supplies in the United States as a measure of assistance to the Government, patriotic Americans will not complain. This is evident from the readiness with which newspapers have themselves advanced plans for conservation and are accepting Government orders for reduction of paper consumption, elimination of waste, etc.

But conservation of paper to be effective and fairly managed must go beyond restrictive regulations for newspapers or the prohibition of the establishment of new dailies or weeklies for the period of the war. Some check should be placed also on magazines and other periodicals of monthly or semi-monthly or perhaps bi-monthly appearance. A limit should be put on the amount of good white paper they can devote to reading matter and the advertising. Much could be saved this way without really hurting any one in the least.

But the very beginning of conservation ought to be practiced by the Government. Tons of paper are being wasted under Government sanction in propagandist work, in useless department outpourings, in slush

from the Bureau of Public Information. There is where the first cut should come. Both common honesty and good example demand it.

Easier Than Vacationing.

It is much easier to die than to take a vacation. A man who is summoned to his last long voyage may set his house in order in an hour; a few words, written or dictated, will dispose of his possessions, and his heirs will gladly attend to the details. This done, he may fold his hands on his chest and depart this vexatious life in peace.

It is quite another matter to prepare for a few weeks' stay from town. There are bills to be paid; the ice-man, and the milkman, and the laundryman must be chalked off, and the daily paper restrained from littering the doorstep. There is hair to be cut, and teeth to be tinkered, and so on. In short, it takes days to stop the machinery of living for a fortnight, and days to start it going again. But, my dear, one must have a change.

VOLUNTEERS WANTED FOR RAILWAY CORPS SERVICE

ONE DOLLAR FOR HAIRCUT; FIFTY CENTS FOR SHAVE!

One dollar for a hair cut and 50 cents for a shave will be the standard price if barbers accept the suggestion of the Barber Supply Dealers' Association, a national organization which held its annual meeting in Chicago. A statement made public in relation to the suggested advance in rates said: "Hair-cutting has always been done at too cheap a price, and most of our people feel that this is one branch of the work that should be paid for at a decent, respectable rate."

The price of hair cuts in Newark, Ohio, will be 50 cents after September 1, while shaves will be 20 cents. The local barbers' union decided to raise the price, claiming it was necessary to keep barbers from leaving to accept employment elsewhere at higher wages.

Food Administration Publishes Price List As Guide to Consumers

Through courtesy of the Bourbon county papers the Food Administration will each week publish a price list of the most important and necessary foodstuffs. These prices are absolutely fair, being based on the percentage recommended by the Government and any and all violations should be promptly reported to the County Food Administrator:

Wheat Flour, retailer pays 75c per 12 lb sack . . . 80c to 83c per 12 lb. sack or 7c in bulk
Rye Flour, retailer pays 8 to 8 1-3c lb9c to 9 1/2c lb.

Canned Salmon (red), retailer pays 25 1/2c to 26c can35c to 38c can
Corn Syrup, retailer pays 70c to 71c gal90c to 95c gal
Cheese, retailer pays 29c lb40c per lb.
Low prices refer to cash and carry system; high prices refer to credit and delivery system. The greater cost of the credit and delivery system justifies the greater profit.

Merchants are still governed by the fifty-fifty plan: No person is allowed to buy from the merchant more than six pounds of flour per month per each member of the family and this amount must always be sold with an equal amount of substitutes.

Every one is urged to practice the greatest economy in the use of sugar. No family is allowed over 2 pounds per month per each member of the household. No family will be allowed in the aggregate more than 25 pounds for home canning purposes.

Please report all violations of the Food Administration rules.

Bourbon County Food Administrator.

NEW DRAFT TO AFFECT 250,000 KENTUCKIANS.

The first call for Kentucky selectives under the provisions of the Administration's man power bill, extending the draft ages, will be issued probably the latter part of November, Maj. Henry F. Rhodes, head of the selective service in Kentucky, said.

If the bill passes, as urged by the Administration—extending the ages from 18 to 45 years—Maj. Rhodes estimates that between 240,000 and 250,000 men will be affected in Kentucky. Of this number, he said, 75,000 or 80,000 men will pass the physical examination and be ready for a call to the colors.

With the extension of the draft ages, he said, there is little probability of deferred classes being called at all. Youths who have attained their twenty-first birthday since June 5 last will be called into service the latter part of September or the first of October.

Ten thousand men qualified for general military service will be called the first week in September, and there are enough men in Class 1 at present to fill this call.

In addition to this call for registrants qualified for general service, between 1,500 and 2,000 men held for special or limited service, will also be called the latter part of this month or the first of September. About half of the number called will go to Camp Wheeler, Macon, Ga.

Maj. Rhodes said he has just received notice that 3,150,000 forms had been shipped him by the War Department, and these forms must be distributed by his office to various local boards throughout the State.

Plans for the registration next month, as provided by the man power bill, are now almost complete, Maj. Rhodes said. Names of all the men who will act as registrars in the 120 counties are now in his hands.

DOGS HELP TAKE DRAFTEE ON HIS 3,000 MILE TRIP.

Leland L. Hudson, a select from Paxson, Alaska, 200 miles north of Fairbanks, arrived at Camp Lewis, Tacoma, Wash., after a trip of more than 3,000 miles in which he traveled by dog team, buckboard, mail barge, river steamer, railway and coastwise vessel.

Due to a mistaken idea on the part of the registrar at Paxson, that all men who registered there were obliged to give their address "in the States" Hudson gave his mother's address in Seattle. His card was sent there, and on May 22 he was ordered by the Seattle Board to report there for duty. He asked for a two-weeks' extension because a boat did not leave Fairbanks until late in June, but he received a reply to "take the first train or be classed as a deserter." The nearest railway is at White Horse, more than 1,200 miles away.

He left Paxson, May 26, going 42 miles by dog team in two days, in which he went through a blizzard; then 72 miles by buckboard in two days, in which he had four relays of horses; down the Tanana River and through the Bates rapids for 100 miles on a mail barge and arrived at Fairbanks June 2. He took a steamer from Dawson, June 20, and went 900 miles down the Tanana and up the Yukon, arriving at White Horse, July 5. While on the Yukon, which makes a wide bend and goes north of the Arctic circle, Hudson, with 30 other selectees who were going to Fort Yukon, drilled on the up-

per deck of the river boat under the light of the midnight sun.

He took the White Pass Railway from White Horse to Skagway, paying \$20 for a passage 110 miles long and arrived in Skagway in time to engage passage on a boat for Seattle, which left July 7 and arrived there July 9. He reported for duty July 26, but it was not until when he presented vouchers for his expenses, totaling nearly \$400 that officers were aware of his long journey.

A means of making use of the electric magnet under water has been devised in Japan, and it promises to be of great assistance in locating sunken vessels, to recover which salvage operations on a big scale are expected after the war.

The Great Western Railway system extends over 3,008 miles, thus taking first place in the United Kingdom. The Northwestern comes second, with 1,969 miles.

A good slogan for the next two months: "Every farmer a bond buyer in the Fourth Liberty Loan."

Protect Your Eyes From Sun's Glare

If planning an outing at the sea shore or on the water this summer, have a care for your eyes, for exposure to excessively brilliant light will sometimes bring on inflammation of the eyes. Amber and Crooks' glasses will prevent this form of eye-strain and will add much comfort to the wearer. If you are an eye-glass wearer this can be ground in your regular correction, also any other shades if desired.

LETTERS FROM BOURBON COUNTY SOLDIERS AND SAILORS

Mr. S. R. Hudnall, of Shakespeare, is in receipt of a letter from his former chum, Mr. Robert M. Pollitt, who is a member of Uncle Sam's big army now on French soil, aiding the Allies. Pollitt is a member of Co. L, 51st Infantry, having been one of the draftees from this county, who were sent over the waters some time ago from Camp Taylor. Mr. Pollitt says:

"Old Pal:
"How are you and all the other people in the best part of old Bourbon county, in and around Shakespeare? I hope you are all well and getting along fine. Be sure and enjoy your life while you can, for a fellow can never tell what day his pleasures are to be taken away from him, and all his good times come to an end. I am well and enjoying soldier life to the very fullest. I'll tell you this, Shady, this thing of being a soldier is the greatest thing in the world for a young fellow. It certainly will make a man out of him. And Uncle Sam is becoming known as the greatest provider the world has ever known. Why, the American soldiers are the finest looking lot of men I have ever seen in my life. They are the wonder and admiration of all Europe, and certainly their appearance has put the fear of life in the despicable woman-butcher, the dirty Hun. Also it has put the certainty of death in their souls when they know a bunch of Americans are charging over the top with bayonets or anything else. I'll tell you, they are just grand fellows. I am somewhere in Europe. I know it is somewhere in France, and that is all I do know and about all I care, either. Still, I would like to be in Paris, Ky., this morning, and to take a ride around the old burg in your old Buick. Guess I will do so when I come back. The boys are all confident we will be back in less than a year. And in that time we are going to give those Boches, you know what I want to write, but guess the censor might not pass it. This is a wonderfully fine country, just like our dear old Bourbon county, green and peaceful looking, except where war has scarred and torn the face of the earth and ruined villages. Well, there's work to be done, so I will close, hoping to hear from you real soon. My love to all. My new address is
"PRIVATE ROBERT M. POLLITT,
"Co. L, 51st Infantry, Amer. Exp. Force."

From far-away Washington, on the shores of the Pacific, comes the following letter to a member of THE NEWS force, from Mr. Sherman R. Snapp, formerly of Paris, now in Uncle Sam's service.

"Camp Lewis, Wash., Aug. 20.
"Dear Friend:
"I want to acknowledge my appreciation of your kindness in sending a 'soldier's paper' to me at this camp. I certainly appreciate getting THE NEWS, which puts in its appearance promptly twice-a-week. I'll tell you the truth when I say that I read everything in it. Of course, the first thing I look for is the 'Service' column, as I wish to keep up with boy comings and goings of my old buddies who are offering their lives to Uncle Sam. Camp Lewis is an ideal place for a Government cantonment. It will accommodate 75,000 soldiers, and is equipped with every modern convenience for the health of the boys. One of the best advantages we have is in the matter of weather. Just imagine sleeping every night with two woolen blankets and a comfort over you during the months of July and August, and you can gain a fair idea of the kind of weather we are having in the State of Washington. I wore a woolen sweater to-day and it was not a bit too warm. I am fortunate enough to belong to the Headquarters Com-

pany, the only company where the boys don't have to take their turns at washing, mopping up the floors, etc., better known in the army as 'K. P. (Kitchen Police.) This work is usually done by the Conscientious Objectors, or the fellows who profess a religion which will not permit them to even indulge in thoughts of war. But their religion vanishes when they get down to hard work. The meals served in the camp are good, so, taken all in all, Uncle Sam is a good provider, and certainly the best fellow on earth to work for. The longer I stay here the better I like it. Am trying to get a transfer to the Thirteenth Division, so that I will soon get a chance to go over to France. As I have been pronounced physically fit in every way I do not see any reason why I should be turned down for overseas duty. Don't forget that letters are mighty welcome visitors to the boys in the service, and I, for one, am certainly glad to get them. Let yours come at once. With my best regards to all the force, I am,

"Your Friend,
"SHERMAN R. SNAPP,
"Headquarters Co., 766th Depot Brigade, Camp Lewis, Wash.
"P. S.—I am enclosing an excellent likeness of the future ruler of the Infernal Regions, alias Emperor Bill, the Butcher, of Berlin. Do justice to it."

The following is a letter from Corp. Ralph Huffman, formerly of Paris, who is now in France with the American Expeditionary Force:
"Dear Mother and All: Received a letter from you a few weeks ago, and was awfully glad to hear from you. Dear mother, I hope you will forgive me for not writing sooner, as I have not had time for such writing. I have been busy with what little leisure time I have in trying to get enough sleep and eating. Believe me, we surely have been on the go for a good many days, and some of the boys are still on the go, giving those retreating Germans hell. I have been helping for quite a while, but am now in a base hospital somewhere in France. Do not worry, mother, dear, as I am not in great danger, only put out of commission by getting knocked down by two or three German high explosives. Was feeling bad for a while, but am pulling through all right now. Will soon be in good shape again, and certainly hope to be by the time you receive this. Give my love to all. I will write a longer letter next time.
"Your loving son,
"RALPH HUFFMAN,
"Co. A, 151st M. Bn., American Expeditionary Force."

James L. Parker, a former Paris boy, writes to his friend, Mr. Robt. S. Porter, of Paris, as follows, under recent date:
"Somewhere in France.
"Dear Mr. Porter: 'I have now been in France for some time, but have not had time to write, for we have been very busy the last two months. The Americans are keeping the Germans going fast, and I think it will not be very long before we can cross the Rhine. I have been in the Marne River about four times, and at present the river is between me and Paris, France, and it will certainly stay that way. France and England, or what I have seen of these countries, are surely very pretty, very much like our Bluegrass section. Everybody so nice to us over here, even the Germans when we get them in a tight place, are our kamerades. That kamerade stuff doesn't get into the prints, but those kamerades are filling up lots of space under the ground. Tell all the boys we are having some time, and that they ought to come over in time for the big wind-up for Ger-

many. Now, I will have to get busy. Will write at greater length next time.
"Your U. S. Friend,
"JAMES L. PARKER,
"116th Field Signal Battalion, Amer. Expd'ty Force."

RED CROSS APPEALS FOR TRENCH FOOT SLIPPERS

To the Women of Bourbon County:
In our quota for September 1, in Red Cross work, is a request for 500 trench foot slippers (250 pairs.) These slippers should be made of velvet, velveteen, corduroy or heavy cloth. They are then lined with outing flannel.

It is impossible for us to buy the necessary material and we are asking the patriotic women of the county to send us any garments or pieces they have no use for, to be used in this way. An old pair of cloth trousers, or a coat, can be cut into several parts, as the slippers can be pieced.

We published an appeal some days ago, but the response was so small we have less than 50 slippers made. Are we to fail in this, as we have done in nothing else? We have been proud of our record up to this time. May it always remain untarnished. If any friend desires to buy a remnant or piece of new material to send in, it requires two-thirds of a yard of 27 inch goods to make one pair.

Send all material to the Red Cross rooms, at the Court House, in Paris. If it is more convenient for ladies out in the country, materials may be sent to Mrs. Annabelle Wallace, or Mrs. D. C. Lisle, at Leesburg; Miss Florence Hopkins, at Little Rock; Mrs. Letcher Weathers, at Clintonville, and Mrs. Jno. Collins, at North Middletown.

THE BEST PROOF GIVEN BY A PARIS CITIZEN

Doan's Kidney Pills were used—they brought benefit.

The story was told to Paris residents.

Time has strengthened the evidence.

Has proven the results lasting.

The testimony is home testimony.

The proof convincing.

It can be invested by Paris residents.

Mrs. J. T. Martin, 1024 Main street, Paris, says: "Kidney trouble came on from a fall and the results were very severe, causing me more suffering than the fall itself. No one can ever know what I went through at that time for I suffered awfully. My back ached and pained until I thought it would break in two. Sharp twinges shot through my kidneys and if anyone had hit me in the back with a heavy axe it could not have hurt worse. In one week after using Doan's Kidney Pills I felt like a different woman, for they fixed me up in fine shape. (Statement given February 17, 1918.)

RESULTS THAT REMAIN

On November 9, 1916, Mrs. Martin said: "Doan's Kidney Pills have made a cure for me and it has been permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Martin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

FARMER COMES TO FRONT.

(Farm and Family.)

The war is doing very many things for the farmer in America. It is bringing him to the front in the national life and it is bringing him and his city cousin much closer together than they have ever been in the past. The city man at times has been willing to forget the farmer, but the problems of food production have suddenly made him realize that the food of a nation is absolutely its greatest need.

Perhaps this whole statement of the farmer coming to the front should be made stronger than it was in the above paragraph. The farmer has come to the front not only in our national life, but in the life of the whole world because the food problem of any nation is now a worldwide problem.

PARIS MAN NEW MANAGER OF OHIO INSURANCE CO.

Mr. D. Harold Johnson, formerly of Paris, and Mt. Sterling, who has been in Columbus, O., several years in the insurance business, has received official confirmation of his appointment as Agency Manager of the Fidelity Mutual Life Insurance Company. Mr. Johnson is one of the most successful insurance men in Ohio. He is a son of Mr. W. H. H. Johnson, and brother of Miss Susie Johnson and Mrs. Lida Conway, of Paris.

The following complimentary reference to Mr. Johnson's appointment was published in a recent issue of the Fidelity Field Man, an insurance magazine devoted to the interests of the Fidelity Mutual Life Insurance Company:

"We take pleasure in announcing the appointment of D. H. Johnson, formerly of Paris, Ky., as Agency Manager at Columbus, Ohio. Mr. Johnson is a man of pleasing personality. He has been a salesman all his life. He comes from the Bluegrass of Kentucky, but for many years has made Columbus his home and is well known all over the Columbus terri-

tory. In recent years he has written quite a little business for the Fidelity, but only as a part time man. He has come to see the great possibilities of the business, has severed all other business connections and taken up insurance as his life work. The production list will soon tell the story of the success which we are confident he will have."

PAIGE AND BRISCOE AUTOMOBILES.

THINGS TO WORRY ABOUT

The Fuel Administrator advises us to burn wood and save coal. This is good advice, but the question arises, with nearly all the wood already consumed, and little or no coal in sight, what will we do this winter if it is as cold as it was last?

WOMEN'S ACTIVITIES.

Mrs. E. F. Clay, Chairman War Census of Women.

The taking of the war census of the women of Bourbon county will begin September the third and continue through the tenth.

It is hoped that Bourbon county women will come forward with this work rapidly and help make the work for these committees as easy as possible on account especially of the many other duties imposed upon them at this critical period.

Mrs. E. F. Clay, Chairman, has been untiring in her efforts in organizing and appointing sub-committees and everything is about ready for the real work on September 3.

The following able women have been appointed as registrars in their respective precincts, who will have assistants, to be named later:

In The City of Paris:

Miss Nell Crutcher.
Mrs. Ossian Edwards.
Mrs. A. T. Forsythe.
Mrs. Chas. Duncan.
Mrs. J. J. Veatch.
Miss Olivia Orr.

Mrs. Doty, (Millersburg.)
Mrs. Amos Turney, Jr.
Mrs. Mack Grimes.

Cards for the registration have arrived. The Secretary will be at headquarters which have been opened in the Bourbon-Agricultural Bank building for the purpose of giving out the cards to the registrars. The

office hours will be from 9:00 to 11:00 a. m., and from 3:00 to 5:00 p. m.

"THE BEAST OF BERLIN" A WONDERFUL FILM PLAY

In commenting on the film production "The Kaiser, the Beast of Berlin," which will be shown at the Alamo this (Tuesday) morning and afternoon, and at the Paris Grand to-night, critics have laid stress on the splendid detail of the film.

Rupert Julian, who produced the film and portrays the Kaiser, himself has paid particular attention to the smaller details of the costuming and settings for the photoplay. Lee Smith and William Howard, art directors, assisted Mr. Julian in getting the settings arranged and they were constructed by Norman Dawn and G. H. Armstrong. Photographs and blueprints of the Imperial Palace, Berlin, were used in the making of the sets. Mural decorations for the various rooms of the palace were painted by Henri DeBeauville, Signor LeMair and George Davis.

The costumes worn by the Kaiser, various generals and soldiers were purchased abroad and brought to this country early in the war. Costumes for the women and peasants in the cast were made by Mark Fiolka, Mrs. L. E. Littfield and Mrs. L. H. Coulter.

Edward Kull photographed the entire film and arranged the lighting effects. Chester Bennett selected the out-of-door locations. Frederick Tyler assisted Mr. Julian in the direction of the action for the photoplay.

DAUGHTER OF FORMER PARISIEN KILLED IN CHICAGO

Mildred Kiley, aged eleven, daughter of Mr. John Kiley, formerly of Paris, was run down by an automobile in the Lake Shore Drive, near the Diversay Beach, in Chicago, Friday, and was so badly injured that she died soon afterward in the Columbus Memorial Hospital.

In the machine which caused the little girl's death were two Chicago physicians, Drs. J. W. Paulsen and S. W. Sonnenheim. The girl and a friend, Violet Ingels, were on their way to the beach when she became confused upon the approach of the automobile. It was at first thought that the injuries were not serious.

Information of the accident and its fatal consequences were immediately sent to Mr. Kiley's mother, Mrs. Ellen Kiley, and his sister and brother, Miss Mary Kiley and Mr. Jos. Kiley, in this city. Mr. Kiley has been a resident of Chicago for several years, going there from Covington.

CROPS SUFFERING FOR RAIN.

Crops in Bourbon county are suffering from lack of rain. In some sections farmers are cutting their tobacco, as it is "firing" badly. If the drought continues a few days longer, the corn crop in some sections will be cut in half. Stock water is getting scarce, the grass is parched, and many farmers are shipping their cattle on account of these conditions.

BEFORE HE GOES

When we have won the war—when our boys sail home across seas forever freed from pirate submarines, when our boys, bronzed and sinewy, hardened veterans, go back to the brave homes so bravely defended. Happily they take up pursuits of peace—but never will they forget that they have been soldiers of democracy. And they will always be grateful for that which will keep fresh in their memories the story of this great war. This thing the pictures can do. Kodak pictures such as you can take will help to "turn the dark cloud inside out till the boys come home."

PLAIN NATURAL IRON BEST TONIC.

Costs But a Fraction What Weaker Preparations Sell For—A Spoonful In a Glass of Water a Dose.

The absolute proof that medicinal iron would help the blood and strengthen people wonderfully has caused many chemists to perfect more or less efficient iron tonics and more or less efficient tablets.

For most people, however, the writer would say that just plain highly concentrated Acid Iron Mineral is better, far cheaper and stronger and goes from two to six times as far.

A bottle of Acid Iron Mineral, kept handy and a teaspoonful poured in a glass of drinking water after meals, makes a delightful, very unusual and highly beneficial tonic and strengthener, and if the blood needs enriching and purifying that does it better or ride the system of rheumatism and kindred ailments quicker than just plain concentrated Acid Iron Mineral, which is the name for non-alcoholic natural iron.

It also has a beneficial effect upon appetite and digestion, and the kidneys soon show its effects.

(Note:—) A-I-M does not act as a laxative and should one be needed to stimulate the liver or bowels a good laxative tablet like A-I-M Liver Pills is recommended. (adv-T-tf)

KAISER AND SONS SHOULD BE EXECUTED AFTER WAR

"For the good of Germany and the world several thousand executions should be ordered by an international court at the close of the war, the Kaiser and his six sons to head the list of condemned," said Judge Kene-saw Mountain Landis, of Chicago, after his arrival in Cincinnati recently.

"The Kaiser and his six sons, as well as the governing clique in Germany, are responsible for German 'Kultur' and the work of propagandists in the United States," Judge Landis continued. "The end of German 'Kultur' also must put a period to the German war ambition.

"We in this country will never get what we are entitled to unless the hyphen is eliminated forever."

Judge Landis' son, now in the aviation service, is engaged with other Americans in battling for air supremacy on the western front.

DRAFT DEPLETES NEW YORK POLICE FORCE; MERCHANTS PROTEST.

Stating that fifteen per cent. of New York's uniformed police have gone to the colors and that under the new draft bill the majority of those remaining are likely to be called, imperiling the safety of the metropolis, the Merchants' Association of New York sent a letter to Provost Marshal General Crowder and United States Senator Chamberlain and Representative Dent urging them to include in the new draft law a provision for the exemption of New York policemen.

Ships & Sugar

OVER 75 per cent. of the sugar used in the United States is delivered by ships. There is produced about 800,000 tons of beet sugar and 250,000 tons of cane sugar in Louisiana. The total consumption of the United States is about 4,500,000 tons of raw sugar, which makes about 4,250,000 tons of refined sugar.

If our coasts were blockaded as Germany's now are, we would have available for the use of the people of the United States only one pound of sugar for every four we use. Under such circumstances there is no doubt that the American people would get along on this limited supply without complaint.

The United States Food Administration is asking every American household to use not more than two pounds of sugar per person each month for domestic use. Reducing our sugar consumption here means that we will be able to help supply the needs of France, England and Italy. Sugar conservation on the American table also means conservation of ships.

The Army and Navy have sent out an "S. O. S." call for ships. "Save Our Ships to Transport Troops and Munitions to France, in order that we may keep the fighting front where it now is and not allow it to extend to our own homes," is the message.

There is ample sugar in the world for all requirements—in fact, there is a large surplus, but on account of the ship shortage it is not available for use in this country.

Java, which produces 15 per cent. of the world's cane crop, is too far removed. It requires 150 to 160 days for a ship to go to Java and return.

EARNEST PLEA MADE FOR GRADUATE NURSES.

A thousand graduate nurses must be sent overseas each week for the next two months to meet the requirements of the Allied armies, according to the word that has reached Paris from Lake Division Red Cross headquarters.

The "thousand-a-week" request to the Red Cross has been made by Surgeon Goras, and Miss Anna Gladwin, acting director of the Lake Division Nursing Bureau, has appealed to Red Cross organizations throughout Ohio, Indiana and Kentucky to speed up enrollment of eligible nurses.

In the six months ending July 31, 703 nurses had been enrolled from these three States—537 from Ohio, 136 from Indiana and 30 from Kentucky.

Notice has gone out that the pay of nurses going into active military service has been increased to \$75 a month for overseas duty and \$60 a month for work in camps and cantonments in America. This is in addition to board and lodging and to the same War Risk Insurance privileges that are granted soldiers, sailors and marines.

"Nurses will respond to this imperative call if the people of Paris will conserve the nurse power and impress upon the nurses that the 'Greatest Mother in the World' must have thousands of them to meet its obligation to the Government," says Miss Gladwin.

WAR DRIVE BOOKS TO BE SENT TO LEXINGTON.

The American Library Association Headquarters in Washington, has asked the Lexington Library to handle and ship for the Paris, Ky., Library 800 books of fiction and instruction to the soldiers in France.

Lexington is one of the few centers which is allowed by the association to send books by Quartermasters freight. It is the only city in Central Kentucky with this recognition as such. The Lexington Library will probably become the shipping center for books for soldiers in France, for this section of the State.

Recently the Lexington Library association sent 350 volumes to Brooklyn to be sent over to France immediately. These books were contributions from Lexington and Fayette county.

PLACE CONFIDENCE IN SOIL.

Confidence in the soil means much for good farming. If you believe your soil will respond to good tillage you are apt to trust it that far. If you believe your soil will pay for extra investment in lime, drainage and fertilizer you are likely to make the greater investment. But after all it is self-confidence, for the soil will be just what you let it in the way of production.

STATEMENT TO THE PUBLIC

Complaints have reached me from time to time of overcrowded trains and unsatisfactory conditions prevailing in some sections of the country in passenger train service. I feel certain that there are grounds for some of these complaints, but I am sure the public will be interested to know that the reasons are two-fold:

First—The great number of troops now being handled over the various railroads between the home and the cantonments, between the different cantonments and then to the seaboard, is making extraordinary demands upon the passenger car and sleeping car equipment of the country. This has caused a scarcity of day coaches and sleeping cars which it is impossible to remedy immediately.

Secondly—The increased demands upon track and terminal facilities for the transportation of the tremendous amounts of coal, food supplies, raw materials, and other things required for military and naval operations, as well as for the support of the civil population of the country, force the largest possible curtailment of passenger train service. The movements of troops and war materials are, of course, of paramount importance and must be given at all times the right of way.

It was hoped that the increase in passenger rates recently made would have the wholesome effect of reducing unnecessary passenger traffic throughout the country. The smaller the number of passengers who travel, the greater the number of locomotives and cars and the larger the amount of track and terminal facilities that will be freed for essential troop and war material movements. Engineers, firemen and other skilled laborers will also be released for service on troop and necessary freight trains.

Among the many patriotic duties of the American public at this time is the duty to refrain from traveling unnecessarily. Every man, woman and child who can avoid using passenger trains at this time should do so. I earnestly hope that they will do so. Not only will they liberate essential transportation facilities which are necessary for war purposes, but they will save money which they can invest in Liberty Bonds and thereby help themselves as well as their country; and the fewer who travel, the more ample the passenger train service will be.

I may add that consistently with the paramount demands of the war, every possible effort is being made by the Railroad Administration to supply the largest possible amount of comfortable and prompt passenger train service.

W. G. McADOO,
Director General of Railroads.

INDIANA FARMER CLEARS 300 PER CENT.

A far better investment than Standard Oil Stock is the returns on this year's wheat crop secured by a Vigo County, Indiana, farmer.

According to the county advisor, H. J. Clinebell, this farmer secured a wheat yield of 36 bushels to the acre. He planted good seed and used some commercial plantfood. Where no treatment was given the land, the yield was only 22 bushels per acre. On this same farm where the ground had been in wheat continuously for ten years, by the use of two tons of ground limestone and 200 lbs. of acid phosphate to the acre the yield of wheat was increased 10 bushels per acre. The increase for the ten acres, after deducting cost of treatment, left \$150 profit on a \$50 investment, or 300 per cent.

Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

Class 1 includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

Class 2 includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

Class 3 includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.

Swift & Company, U. S. A.

LIBERTY LOAN PRIMER — THE BIGGEST ANTI-HUN DRIVE.

That was some drive which Marshal Foch directed against the Huns when he thrust them back from the Marne and sent them skurrying to their new line of defense along the Aisne. Never for a moment did the Hun-hungry pollous and Yanks stop their dashing, smashing attack; never for a moment did they give the baby butchers a breathing spell; never for a moment was there thought with any one of them of anything but putting just as many Germans as possible permanently out of business. It was a world-thrilling exhibition of allied valor, stimulated by typical Yankee punch.

If gave the Crown Prince his most decisive defeat of the war. It set the Prussian-dominated press of all Germany to camouflaging the situation. It shook the German army morale and sent the first thrill of apprehension up and down the spine of the whole German empire. It probably intimidated to Kaiser Bill that after all the Lord was not altogether holding up his end of the self-appointed partnership. And it put new spirit, new hope, new confidence into every war-weary allied heart.

It was a magnificent thrust, but the biggest anti-Hun drive of them all, the one that will mean more to the allied cause than the last victory of the Marne, that will pave the way for more tremendous onslaughts than ever, will begin on the 28th of September—the fourth Liberty Loan drive.

We stay-at-homes could not participate in that glorious Marne victory, but we can, every mother's son of us, take part in this coming drive. We can make our dollars fight for us. We can show the world at large, our boys in the trenches, and the German empire in particular, that the heart of America is in this fight to the limit.

And if our loyalty is genuine, if our patriotism is simon pure, if our sense of duty is thoroughly alive, we will do this.

Early we will begin laying aside for our next bond purchase.

We will save as they struggle, lend as they fight.

And we will buy early.

LIKE THE OLD MILL.

Carl Emile Junck, the millionaire importer of Chicago, said in a Red Cross address:

"The grain shortage in Germany is a most hopeful augury for the Allies. Germany one of these days will reach the starvation point. The war will then end automatically."

"Grain-to-day flows out with such dangerous slowness to the German people that it reminds one of the old stone mill."

"A miller, you know, had an old-fashioned stone mill that ground very, very slowly. A customer, after watching the mill a while, said:

"I could eat that meal faster than your old mill can grind it."

"'Mebbe so,' said the old miller. 'Mebbe so. But how long could ye keep on eatin' it?'"

"'Till I starved,' said the customer."

CATARHAL DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

ANOTHER DR. JEKYLL AND MR. HYDE.

It seems strange that the products needed for the feeding and clothing of our bodies can be used also for destroying us and our property. Take cotton for instance. In times of peace, this product of the Southern farm is woven into clothing, its seeds furnish us oil, feed and fertilizer. It is transformed into the moving picture film that entertains and instructs us. But when international disputes arise, this same cotton is turned into an explosive that destroys and mutilates all that it comes in contact with. — Indiana Farmer's Guide.

Magic! Peel them off without pain or soreness

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the toughened calluses or "hard skin" on bottom of feet, then lift those painful spots right off with fingers. Corns also!

When you peel off corns or calluses with Freezone the skin beneath is left pink and healthy and never sore, tender or even irritated. Try Freezone sure!

DISTRICT BOARD ANNOUNCES LIST OF NON-ESSENTIALS.

WASHINGTON, August 26.—The fact that there now is a shortage in war work of 1,000,000 unskilled laborers and that the reserve of skilled workers is exhausted developed Thursday at a conference of field agents of the Federal Employment Service. Further curtailment of non-essential production is planned to release men for war work.

The labor shortage is so serious that completion of a number of important war projects for the army and navy is being delayed, it was stated at the conference. The field agents decided that the only way in which the needed laborers could be secured was to take them from non-essential industries.

The following are the industries which the District Board, the first to make an announcement, has listed as non-essential:

Automobile industry accessories, drivers of pleasure cars, cleaning, repairing and delivery of same, sight-seeing cars, auto trucks, other than those hauling fuel or doing Government work, teaming other than delivery of products for war work, bath and barber shop attendants, bowling, billiard and pool rooms, bottlers, cigars and tobacco, cleaners and dyers, clothing, confections and delicatessen establishments, builders and contractors not engaged in erecting structures for war work, dancing academies, mercantile stores, florists, fruit stands, junk dealers, livery and sales stables, pawnbrokers, peanut vendors, shoe-shining shops, window cleaners, soft drink establishments, soda fountain supplies.

FEED THE YOUNG WHEAT PLANT

By Giving It a Good Start the Crop Will Be Carried More Than Halfway

WASHINGTON, D. C., Aug. 26.—Wheat planted in soil that is provided with the right kinds of plantfood in proper proportions will produce the best yields, just as young live stock fed a balance ration will make the best gains in weight. It is therefore necessary, according to the United States Department of Agriculture, to supply the elements of plantfood, which are not already available in sufficient quantity in the soil. This is highly important in planning for the Liberty Wheat Harvest of 1919, for which the Department of Agriculture is recommending that American farmers sow at least 45,000,000 acres of winter wheat this fall. While this acreage, which is an increase of 7 per cent. over last year's sowing, is desirable, it is also of utmost importance that every means be taken to increase the yield per acre.

TELEPHONE COMPANIES RECEIVE THEIR WAR ORDERS

Postmaster General Burleson has issued an order to all telephone companies to confine extensions and betterments and vital commercial needs and to proceed as expeditiously as possible with plans for consolidating and unifying telephone plants where the consolidation is desired by the public.

In cases in which two telephone systems are operating in the same area the order directs the companies to co-operate in making extensions and betterments, that unification and elimination of waste in money, man power and materials may be brought about "in an orderly way and with due regard to the rights of the owners of the properties and the convenience of the public."

A NATIONAL CAMPAIGN FOR COLLEGE STUDENT ENLISTMENTS.

One of the most important announcements issued by the War Department has to do with the Students' Army Training Corps. Members of the S. A. T. C. are to be able-bodied college students not under 18 years of age, who are enlisted as privates in this newly-created corps of the United States Army. They take along with their educational training such military training as the War Department stipulates.

This military training will be given by competent officers and non-commissioned officers appointed by the War Department.

By this plan students will be equipped for the peace and war needs of the nation.

The war needs are enormous—our allies have practically exhausted their reserves of those experts so necessary to the conduct of a war of such magnitude as the present one. Trained engineers, electricians, transportation experts, doctors, surgeons, accountants—the list could be extended indefinitely—are just as necessary for winning the war as are the fighters in the trenches.

The trench fighter can be trained in a few months, but he must be trained before he does any actual fighting.

The specialists whose work is just as important, also has to be trained. Their training takes longer; but it is absolutely necessary that we provide the trained men, without whom the fighting men could not go on. The period of training is, in both cases, part of the fight, and the man in training is doing his bit in the best possible way.

THE BEST PLASTER.

A piece of flannel dampened with Chamberlain's Liniment and bound over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like as much. (adv-aug)

RECREATION FOR GIRLS IN THE SMALL KENTUCKY TOWNS URGED.

The need for proper recreation for the young girl in small towns of Kentucky was stressed by Mrs. Margaret Thoroman, State Chairman of the Health and Recreation Committee, Council of National Defense. Within the past month, forty delinquent girls, all from Kentucky towns, have been stranded in Louisville and have been dealt with by the social workers and law enforcement authorities of Louisville.

With the men concentrated in the cantonments, the social and recreational life of the town is dead and the girls want to swarm to the city. The Woman's Committee is urging upon its county chairmen the need for providing recreational activities for the girls, and is attempting to arouse a sense of social responsibility in meeting this problem. The use of the school house as a community center for social intercourse is the method advised. Community singing, which is being organized all over the State, will provide another avenue of interest.

"Make your town attractive, so that the girls will want to stay in it," says Mrs. Thoroman. "They are safer there. Utilize their surplus energy in war work and give them the right kind of recreational opportunities and they will be more willing to stay at home."

MEXICAN FLOATING GARDENS DATE BACK TO AZTEC ERA

The famous Mexican "floating gardens," which are vividly shown in a tour of Mexico, a feature of Lyman H. Howe's newest Travel Festival, which come to the Paris Grand on Monday, September 9th, are in reality centuries old.

The floating gardens are actually small farms constructed on dense masses of tangled roots on the Mexican lakes. The method of constructing these gardens dates back to Aztec days. The ancient Aztecs were very ingenious, in fact their civilization is the oldest in the Americas, and, in many ways, was in advance of contemporary European civilization.

The motion picture tour of Mexico is both quaint and picturesque. For the first time the real Mexico is shown to Americans, for the series embraces everything from native

life in the interior scenes in cosmopolitan Mexico City.

Other features of the Howe program show how ferocious wild animals are captured alive in the Rockies; sensational aviation stunts by the U. S. Marines, a perilous canoe trip through the jungles of South America to Kaletour Falls and new scenes in natural colors of the beauties of Southern France. There will also be a clever animated reproduction of the famous Red Cross poster, "Greatest Mother in the World," and a peculiar "freak" film which displays some amazing results in the way of scenic distortions. Amusing cartoon comedies will be freely interspersed throughout the program; of course, and there will be a number of patriotic film novelties from the Lyman H. Howe studio.
